

# Come with me to Walt Disney World!

Contributed by Jeffrey Cleary

You may already know I spend my winters in Florida. Each of the past three years, I pack up my office, some personal items, and head south for the winter. This winter, I did something a little different. I purchased an Annual Pass to Walt Disney World and used it as my passport to recreation. Instead of watching Television in the evenings, I would visit the Disney parks.

It's true, Walt Disney World is the Happiest Place on Earth, and Dreams Come True each and every day. I have become so very enchanted with the property, the cast members, and the level of service provided each and every day. There is truly no place else like it on earth.

This year, I celebrated my 44th Birthday at Walt Disney World and I hope to celebrate every birthday after there as well. I had the most magical time.

This video provides a nice summary of my time at Disney World. Enjoy!
